

CUT-RESISTANT HANDLING GLOVES

Suitable for all major work requiring good dexterity and significant protection against mechanical risks, particularly cutting (level 3).

STRENGTHS

- + Seamless mounting: improves comfort of the user (no roughness, no heating points).
- + Improves dexterity when grasping thin objects.
- + The polyurethane coating offers excellent grip on dry and greasy parts.

FEATURES

Material: 100% Polyethylene.

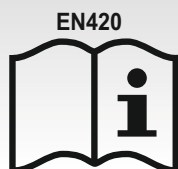

Assembly :

- Knitted in one piece from high tenacity fibres (High density polyethylene).
- Elasticated wrist.
