

# AUTOMATIC TRANSMISSION FLUID EXCHANGER

## TECHNICAL DATA

|   |                     |
|---|---------------------|
| Compressed air connection                       | 8 bar               |
| Waste oil container capacity                    | 20 litres           |
| Fresh oil container capacity                    | 20 litres           |
| Membrane pump delivery quantity                 | 60 litres/min.      |
| Bypass hose length                              | 1500 mm             |
| Connection hose length                          | 2500 mm             |
| Airborne noise emission<br>sound pressure level | <70 db(A)           |
| Temperature resistance                          | 120°C               |
| length x depth x height, approx                 | 700 x 600 x 1200 mm |
| Empty weight, approx                            | 78 kg               |
| Item no.  | 400.400.000         |
